

TACCIA Small Anodized Silver - Specification Sheet
by Achille and Pier Giacomo Castiglioni, 1962

Mounting	Table Top
Lamp (Bulb) Description	1 COB LED 2700K 1290lm CRI92 16W
Environment	Indoor - Dry Location
Finish	Anodized Silver
Technical and Product Description	The Castiglioni brothers often created designs that challenged our perspective, and the Taccia, which gives the illusion of an upside-down hanging lamp, is an inspired example of that. This new, smaller version is approximately half the size of the original design created in 1962. It has a painted aluminum reflector that is gloss white on the inside and matte white on the outside. The diffuser is transparent blown glass and can change direction. The body is available in matte black or naturally anodized extruded aluminum. The base is nickel-plated ABS and PC (polycarbonate). It features an electric cable that measures 190-centimeters and includes a dimmer switch on the cord. Light adjustment can be customized between 10-100%. The plug-in power supply includes interchangeable plugs.
Inspiration behind the design:	Using a minimalist approach, Achille and Pier Giacomo Castiglioni used perspective to change the way we see everyday objects.

Electrical

Voltage	100-240V
Switching	Dimmer switch that provide ON-OFF functions and 10-100% light adjustment with memory
IP Rating	IP20

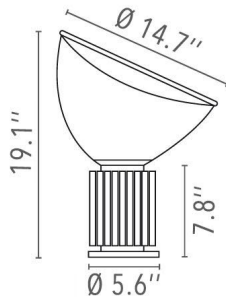

Physical

Cord Length (inches)	74.80
Construction Material	Aluminum, ABS, PC, Glass
Weight	9.37 lbs

F6604004 Anodized Silver
