WONDERGLASS

FLOW[T]

by Nao Tamura

The reflections of the Venetian cityscape shimmering in the evening water hints at an imaginary city below the moving surface. There is a border between the world under and the land above. In the city of Venice, where the real world and fantasy coexists, this chandelier is the embodiment of the beauty of dual worlds.

MATERIALS

Body | Blown Glass

Rod | Metal

COLOURS

Body | Turquoise Gradient | White Gradient

Rod | Black

Bead (S 1 , S 2 , S 3 , S 6 o n l y) | Black
